- **Technology looking for an international partner:**

- Other specifications, requirements or comments:
- PROPOSED COLLABORATIVE PROJECT IN R & D:

The proposal aims to give access to literature produced in the Amazon region and others in general for people with visual impairments, whether from Brazil or Spain.

The objective is to create and promote a digital library through a repository hosted at the Federal University of Amapá with audiobooks of books in partnership with authors from the Amazon and works in the public domain and open access to provide cultural accessibility for people with visual impairments.
