**BSBF2022 Session D3**

**6 October 2022**

BRINGING  
THE **POWER**  
OF THE **SUN**  
TO **EARTH**

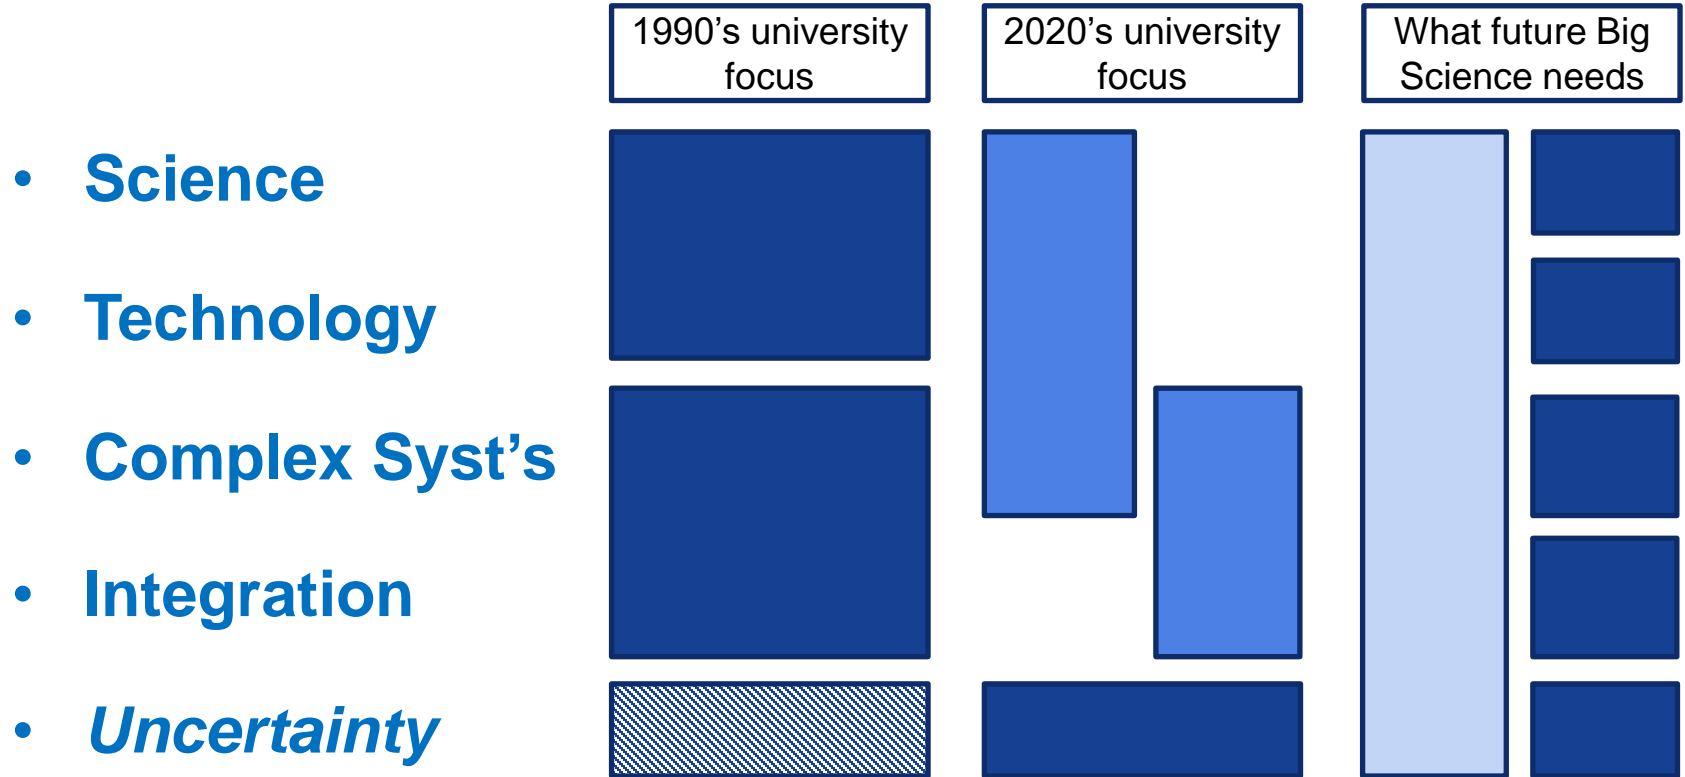

Fusion for Energy receives  
funding from the  
European Union budget

# From one generation to the next

- **Modern big science is multi-generational**
- **Knowledge transfer in the plan from day 1**
- **Constant flow of new professionals, growing “apprentice” to “master”**
- **Involved in designing curricula**

# Preparing for the unknown

- **Big science projects are as much about science as about society**
- **Cultural, communication, social skills**
  - to drive diverse, savvy team
  - to interact with many stakeholders (incl. general public)
  - through years of challenge
- **Still, people skills still underestimated when designing education curricula and selecting new team members**
